ASSEMBLY TIPS

Please read before beginning assembly!

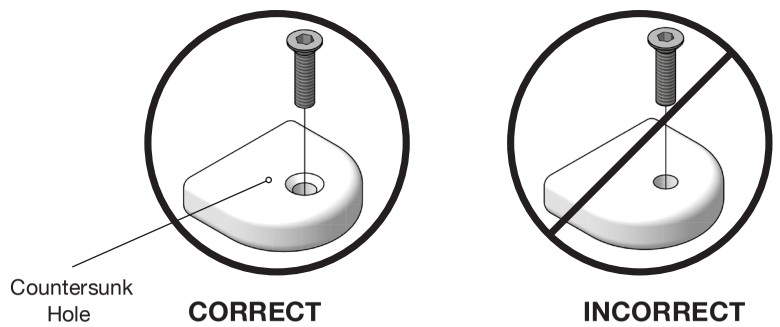

To avoid damaging furniture perform the assembly of your Loll furniture on a clean soft surface like a blanket, carpet, or the flattened cardboard box the furniture was shipped in. Components should not be unnecessarily forced together! If it seems parts aren't fitting together you likely have something wrong and you should reread the instructions to ensure you are aligning the proper components. If your piece of furniture requires "Blocks" for assembly one side may have protective film on it. This surface is hidden after assembly so the film can remain on the block or it can be removed. Use a Cordless Screw Gun if you have one and know how to use it. Set the clutch setting at medium torque. We do not recommend using an electric drill with a cord and without a clutch to install bolts in inserts as you can easily overtighten and damage the product. All bolts come standard with a thread coating to reduce bolts loosening after assembly while still allowing removal and reuse of the bolt. Start all bolts by hand, with the Allen Key, or the Loll Tool and tighten firmly until parts are drawn tight together and you can't muscle the bolt any tighter. It's virtually impossible to over tighten by hand. Watch the assembly videos at www.lolldesigns.com/videos for even more information and visual aids. If you have more questions please contact your Loll Sales Associate or Customer Service for support at 877.740.3387. A **Pro Tool Kit** can also be purchased from Loll for multi piece assembly jobs.

PRODUCT CARE

Your new Loll furniture is a no maintenance product. You'll never need to paint or stain it and it can be left outside all year regardless of the season. It will not rot, even if left standing in water. Nonetheless, we're pretty sure your Loll furniture will get a lot of use and will at some point need cleaning. We recommend a garden hose and incorporating a soft bristle brush. Adding a tablespoon or two of your favorite eco-friendly soap to the wash will get everything squeaky clean. Mineral deposits left over from hard water can be removed with a solution of vinegar and water. Loll offers a cleaning kit that has everything you need for great results. Also see our cleaning video at lolldesigns.com/videos.
